

Anjali Menon

FULL-STACK DEVELOPER & IOT SOLUTIONS SPECIALIST

anjali.menon@email.com | +91 99887 76655 | Trivandrum, Kerala | linkedin.com/in/anjalimenon

CORE CAPABILITIES & SKILLS

IoT Infrastructure & Hardware Management

Experienced in architecting IoT device systems and node management frameworks. Proficient in integrating peripheral systems, custom guards, physical buzzer alerts, and platform layouts for embedded automated units.

Systems & Full-Stack Development

Expertise in C programming utilizing low-level mapping and graphical representations (e.g., graphics.h emulation). Advanced mastery of Python data science stacks, multi-threaded matrix multiplication operations, and backend services.

Cloud Architecture & Infrastructure

Deep knowledge of Cloud Computing fundamentals, multi-tenant architectures, service models (IaaS, PaaS, SaaS), virtualization mechanics, and safe data synchronization paradigms.

KEY TECHNICAL ACHIEVEMENTS

- **Twitter Sentiment Analysis Engine:** Built a high-velocity processing pipeline evaluating real-time feedback using NLP microservices.
- **Embedded Device Controller:** Engineered a C-based system configuration manager handling device sensor telemetry and automated responses.
- **Market Basket Analysis Pipeline:** Built an associative pattern rules mining engine using pandas and scikit-learn for optimal storefront layouts.

EMPLOYMENT SUMMARY

Systems Engineer – CloudScale Technologies	2025 – Present
Technical Consultant (Contract) – SmartAutomation Labs	2024 – 2025

EDUCATION

B.Sc. in Computer Science – Apex Group of Institutions	2022 – 2025
