

RAHUL SHARMA

rahul.sharma@email.com • +91 98765 43210 • github.com/rahuls • Kochi, Kerala

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented Software Engineer with a solid foundation in computer science, system architecture, and full-stack development. Proven track record of designing, building, and deploying scalable web applications and automated systems using modern frameworks.

TECHNICAL SKILLS

Languages:	C, Python, Java, JavaScript, SQL
Frameworks & Tools:	Django, Flask, React.js, Git, Docker, Linux (Bash)
Cloud & Databases:	AWS (S3, EC2), PostgreSQL, MySQL, MongoDB

PROFESSIONAL EXPERIENCE

Software Engineer • TechCore Solutions June 2025 – Present • Bangalore, India

- Designed and optimized a Data Leakage Prevention System using Python, reducing high-risk internal data exposure incidents by 40%.
- Collaborated with a team of 5 to migrate legacy services to AWS cloud infrastructure, improving app deployment reliability and scalability.
- Implemented relational database schemas in PostgreSQL, resulting in a 25% improvement in complex query execution speeds.

Junior Developer Intern • Innovate Tech Labs September 2024 – May 2025 • Kochi, India

- Developed and tested matrix multiplication utilities and advanced computational modules in C and Python for data analysis tools.
- Maintained FOSS Unix systems and optimized automation workflows using custom Bash scripts.
- Participated in daily agile stand-ups, code reviews, and quality assurance processes.

ACADEMIC PROJECTS

AI-Based Air Quality Prediction System Major Project • 2025

- Built an end-to-end regression model predicting urban air quality using historical weather data patterns.
- Integrated real-time data feeds using an IoT pipeline and delivered visual analysis dashboards using Flask.

EDUCATION

B.Sc. in Computer Science • University of Kerala Graduated: May 2025

CGPA: 8.7/10 • Focus Areas: Systems Programming, AI Fundamentals, Cloud Computing
